3 Day Leadership
Immersion for
Women

Lead on Purpose

Developed by women for women who choose to step up and lead.

Whether it's leading yourself, a team, a department or a whole organisation, the Lead on Purpose 3-day immersion will give you the mindset, skills, confidence and support to take your business or career to the next level.

The Global Institute of Training and Presenting presents to you a 3-day women's leadership development master class especially for the key women in your business or organisation.

We believe that every woman has leadership capabilities. Our mission is to help you realise that potential and to give you the resources and support you need to step up.

Women face unique challenges in the workplace and they also bring unique value and a fresh perspective to any organisation. Research proves that when you capitalise on the diversity of your workforce, the return on investment is a better performing organisation.

Old-school leadership development programmes no longer serve us as we move into an era of unprecedented change

Our Lead on Purpose curriculum will dive into the future leadership skills needed to navigate through these tidal waves of uncertainty.

Our unique approach to leadership development is based around powerful learning pods, facilitator led discussions and the exploration of past, current and future leadership trends.

Programme Lead Facilitator: - Paula Smith is the CEO of GITP, a leadership and business consultant, coach, author, master trainer and the leading expert in Presentation Intelligence ®. Paula is also the Editor of IMPACT workforce development magazine and a Professional Speaker CSP (Certified Speaking Professional) Paula's rich professional experience, solid academic qualifications and her dynamic and infectious personality makes her the perfect choice to lead this innovative professional development journey.

Future-proof your workplace by developing your key women.

A new generation of leader will adapt, embrace and lead the human workplace

Lead on Purpose includes:

Participants will enjoy being part of a 3-day immersion experience with a group of like minded peers.

Participants will leave the experience with a better understanding of leadership theories and practice and how this impacts on organisational success.
